

Sharing Christmas Joy with the Residents at the “Tent “

As part of the Corporate Social Responsibility Initiatives, staff from the Portek’s Singapore office organized a Christmas Event for the “Tent “ on 15 December 2010. On this day, we brought the Christmas message & cheers and feted with much joy with the residents of the “Tent ”.

The residents at the “Tent “ were at their vibrant and vivacious best as they performed a mixture of spirited songs, dance and skits for the visiting Portek staff

As we sang the beautiful & resounding carol “Joy to the World “ among many other sweet & melodious carols, the Christmas spirit of love, joy, peace, hope and salvation for mankind was clearly echoed and felt by all present at the event.

In the same spirit of giving, the Portek’s staff team had earlier presented 2 laptop computers to the “Tent “ for the residents’ use during their last visit.

Since the middle of 2010, the Portek’s Singapore staff have been involved in befriending the residents of the “Tent ” through the YMCA’s “ Green Fingers Programme ”.

The “Tent “ provides a safe accommodation and studies centre for teenage residents between the age of 11 - 19 years who have come from broken and dysfunctional families, thus requiring & longing for care, love & guidance in a safe & protective environment.

The “Tent” aims to provide a comfortable and conducive environment for these needy adolescents so that they can progressively attain inner reconciliation within themselves, acceptance by their families & friends and achieving a sense of belonging to the society.
